Purging and Decluttering Homes:

Decluttering and organizing needs to happen before staging or decorating can happen. We will work along side you to help you make decisions on what to keep and what to store away in order to get the home "listing-ready."

Packing:

Once all purging and decluttering is complete, we will provide a team to help pack items that are going into storage or being donated. When the time is right, we can also work with your movers to coordinate an organizational chart that will help make the unpacking that much easier.

Organizing Cabinets or Closets:

Our team will work decluttering cabinets, pantries or closets. Improving cabinet functionality by eliminating outdated food items, stacking storage containers, pans and lids as well as wiping them all down will present an incredible look for potential buyers. It's all about Storage!

And, if your closets are chock full of clothes, shoes, coats, etc. that you haven't worn or are out of season, we will pack those up for you allowing again for the potential buyers to see more space.
